Jenkins

Highlights.
User Interface

Highlights

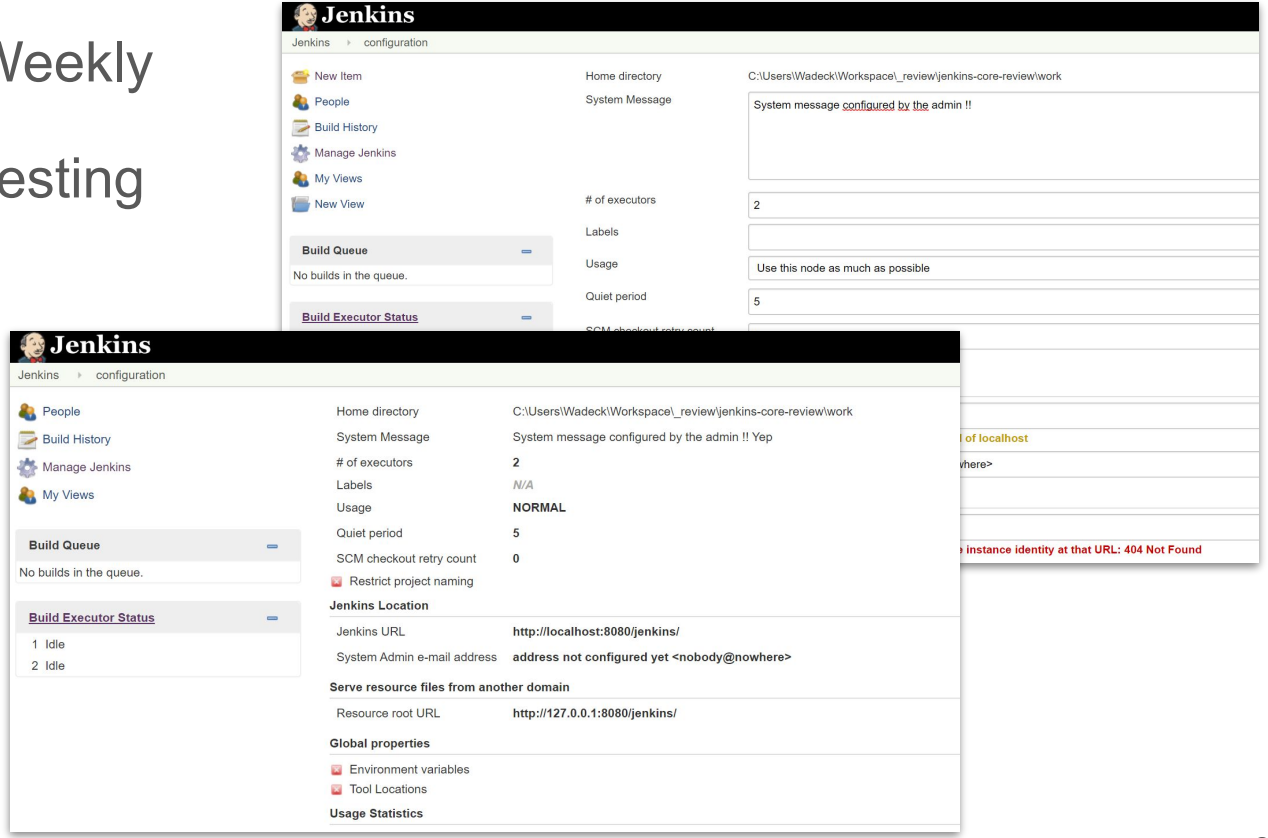
- Read-only Jenkins Configuration preview release and testing
- Dark Theme PoC is available for evaluation and testing:
- Many UX improvements in the Jenkins core and plugins, e.g.:
  - Improved management screens for the Credentials plugin
  - Script Security: new script approval management UI
  - Folder Authorization plugin UI revamp
- Smaller fixes in plugins and the core
- Demos: https://youtu.be/0ZLAOCs3XwU

Read-only Jenkins Configuration

Released in Jenkins Weekly

UX and compatibility testing

Compatibility fixes



Dark Theme

Dark Theme preview

Jenkins Core: CSS Variables and future extensibility

Compatibility testing and fixes

WiP: Dark Login Theme

Highlights.
User Documentation

Documentation Highlights

- Documentation migration from Wiki
  - 40+ user documentation pages are migrated to jenkins.io
  - 20+ plugin docs were migrated to Documentation-as-Code
- Documentation updates
  - Docker solutions page
  - Using Jenkins
  - Managing Jenkins
  - Jenkins System Properties
- Summary recording:
  - https://youtu.be/0ZLAOCs3XwU?t=3344

Documentation is using GitHub Issues

- Good first issues
  - 6 of 11 open “Good first issues” have someone working the issue
  - 9 of 12 closed “Good first issues” were closed during Hackfest
  - ⇒ “Good first issues” are a great way to contribute
- Issues
  - 26 of 57 closed issues were closed during Hackfest
  - 16 of 31 open pull requests are from Hackfest
  - ⇒ Great results that need more reviewers
- Wiki Conversion Triage
  - 87 of 240 pages reviewed, 153 to be reviewed
  - ⇒ Need more reviewers to triage and report issues

Demo

Highlights.
Spread the Word

Highlights

- 10 knowledge transfers and demo sessions
  - https://github.com/jenkinsci/ui-ux-hackfest-2020/tree/master/presentations
- 8 story submissions to JenkinsIsTheWay.io
- Tweets and posts! #JenkinsIsTheWay
- Launched the JenkinsIsTheWay comics

Of course, I've always said "Jenkins is the way" – it's our motto
But when I said we could deploy whenever we wanted, with no special requirements, even every five minutes...
...it was an example – not to be taken literally...
DEPLOY!!!
You were saying?
Nothing important...
OK, deploying...

I've recently been a part of the UI/UX Hackfest by Jenkins organization, and the experience has been amazing! The contributions have been so smooth, it never felt like a competition, rather more like a team collaboration! Indeed **#jenkinsIsTheWay**

Olanrewaju @devlarri · May 27

In my spare time , I try to improve FOSS projects and in turn I get to add to my network of friends and also learn a lot in the process . This week Jenkins UI/UX hackfest started and I'm happy to be a contributor, read about it github.com/jenkinsci/ui-u...

What’s next?

Logistics for swag and prizes

- We will contact participants soon

- **50** most-active contributors will get an exclusive "Jenkins Is The Way" T-shirt and stickers
- Active contributors will get Jenkins stickers and socks
- We are working on special prizes for top contributors, to be announced later

We need your feedback!

Participate and Contribute

There are many ways to engage with the Jenkins project and community. Here are the most common ways to get you started. Welcome aboard!

MEET

Meet other Jenkins users and share your experiences by organizing and attending events and meetups.

Read More

CODE

Do you enjoy writing code? There are numerous plugins and components for you to contribute to.

Read More

HELP

As an experienced user, you can help others get the most out of Jenkins.

Read More

TRANSLATE

If you're fluent in languages other than English, consider improving support for those languages.

Read More

TEST

You can help prevent regressions by contributing automated tests.

Read More

DOCUMENT

Improve the documentation to make it easier for others to get started.

Read More

DESIGN

As it is intended for daily use by finicky web developers, design is essential
